

# Accessing the Waterford Program Grades K-2

The students double click on this icon to begin the Waterford Program. It should be on the Windows Student Profile. If not it's on the Windows Admin Profile.

## Students' Access to Waterford on Desktop/Laptop:

1. On the laptops, there should be a green "W" on the student Windows profile desktop. If it's not there then it's on the Admin profile.
2. The students double click on the "W" and wait for the app to launch. (It may take awhile as there's a lot to load.)
3. Then the students have to click on their teacher's name, search for their name and click.
